Hand-drawn Venn diagram illustrating the intersection of two sets, labeled r/n and o/p .

Left Set (r/n):

- $d'role': surte,$
- $'cat: - y$
- $d'role': vus,$
- $cat: ' ' y$

Right Set (o/p):

- $d'role': ann,$
- $cat: -$
- y

The intersection of the two sets is shaded.

Punkte:	

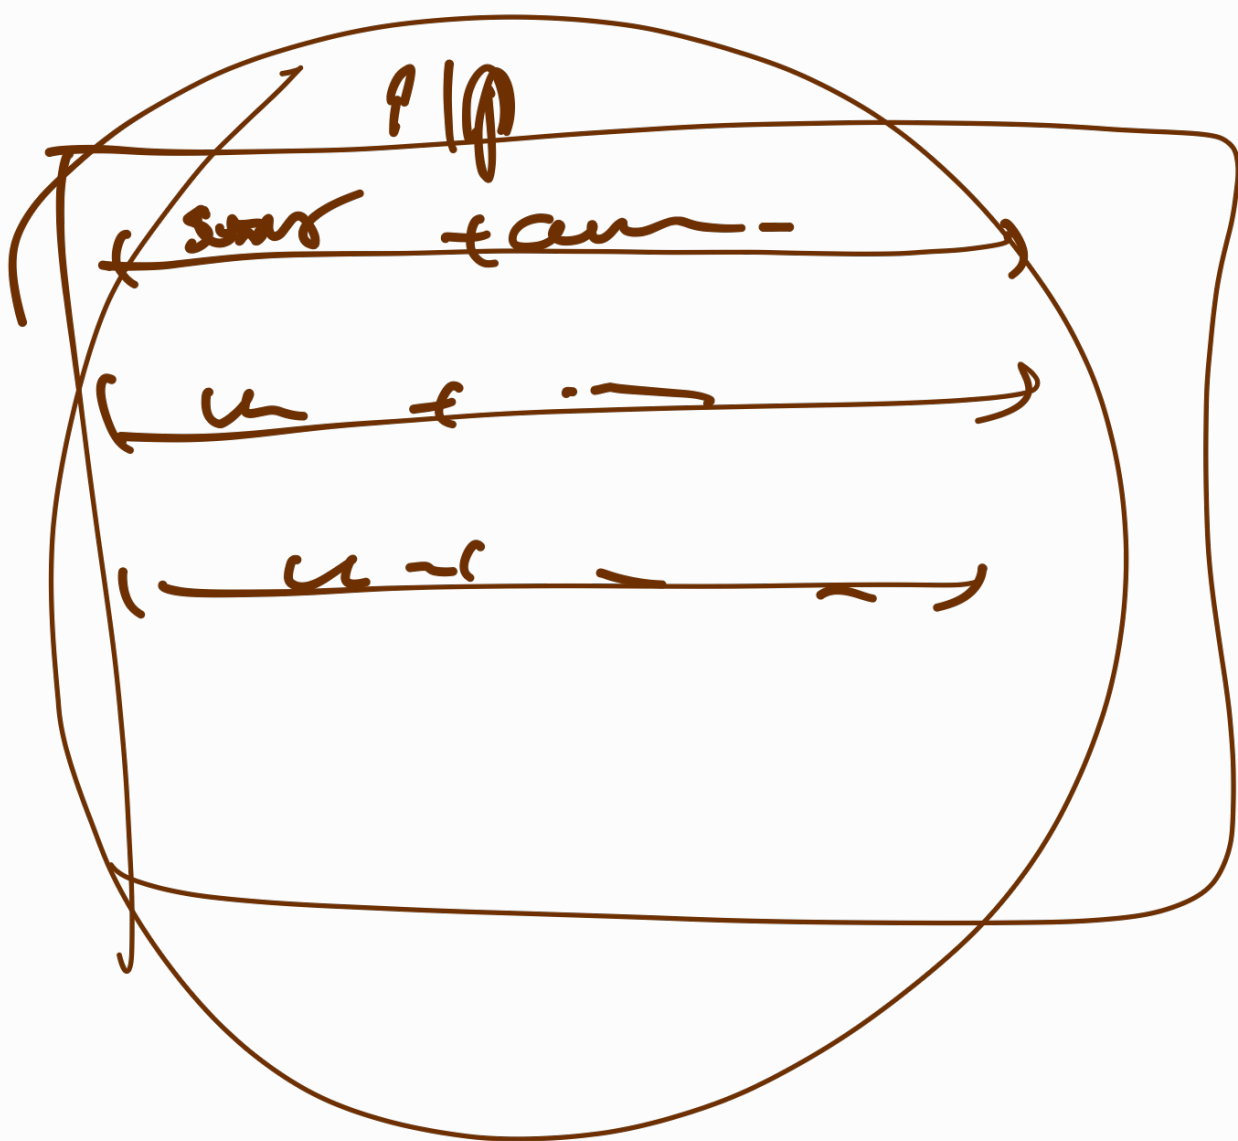

Hand-drawn diagram of a cell with the following labels and features:

- Zellkern**: Nucleus, located at the top left.
- Mitochondrien**: Mitochondria, represented by bean-shaped structures with internal folds (cristae).
- Golgiapparat**: Golgi apparatus, represented by a stack of three flattened sacs.
- Lysosomen**: Lysosomes, represented by small circular structures.
- Mitochondrien-Atmung**: Mitochondrial respiration, indicated by an arrow pointing from a mitochondrion towards the Golgi apparatus.
- Golgi-Transport**: Golgi transport, indicated by an arrow pointing from the Golgi apparatus towards the lysosomes.
